BODYGUARD

★ BODYGUARD SERVICE FEATURES

EMERGENCY RESPONSE SERVICES

BodyGuard or emergency alarm messages can be sent directly to the 111 Service, Guard, family members, health professionals and/or other call-out representatives via IP, SMS, Email or Phone should a situation require immediate attention.

MOBILE TECHNOLOGY

BodyGuard products are based on various mobile phone technologies and include the ability to roam within most towns and cities whilst remaining connected to the ALARMNZ monitoring system & helpdesk team.

GPS TRACKING & MAPPING SYSTEMS

BodyGuard Software used includes assisted Global Positioning System technology that in emergencies gives the ALARMNZ helpdesk operator and/or family friends the ability instantly to locate the *BodyGuard* Phone user via an electronic map.

SOLUTIONS FOR ALL PHONES

BodyGuard mobile devices are available in all styles and GSM packages such as small pendant wrist phones and large phones designed for young and old. Accessories include bluetooth medical safety devices, video cameras, & fire and security detection sensors that transmit data to support professionals instantly.

ALARMNZ is a fully accredited Grade 2B Alarm monitoring centre approved and registered with all relevant government agencies for the delivery of emergency alarm response services. *BodyGuard* technology offered by the company meets all statutory requirements for such devices and conforms to standards required by industry professionals.

ALARMNZ has a reputation for careful data management and service excellence and is recognized by the majority of independent alarm service agents throughout New Zealand as a premium alarm monitoring service provider.
